

Séminaire Groupes Réductifs et Formes Automorphes

Le 4 novembre 2019 à 10h30 (Jussieu)

The ordinary part of higher coherent cohomology of Hilbert modular varieties.

Exposé de George Boxer
(Lyon)

Résumé :

I will introduce the ordinary part (in the sense of Hida) of the higher coherent cohomology of Hilbert modular varieties and explain what we know about it : vanishing results and Hida style control theorems. This is joint work in progress with Vincent Pilloni.
